MENTAL HELTH RESOURCES

[National Alliance of Mental Health](#)

The National Alliance for Mental Illness (NAMI) is the leading organization in the country working to bring awareness and education to the various mental conditions that can afflict any person. As it pertains to the mental health of our students, it is important to understand that (as can be seen on their website) 1 in 6 U.S. youth ages 6-17 experience a mental health disorder. Thus, this resource is excellent as it provides specific information on mental illness, their signs and symptoms, treatment options, and various supports that can be offered.

[The American Foundation for Suicide Prevention](#)

The American Foundation for Suicide Prevention provides very valuable insights on the topic of suicide prevention and awareness. On their website, AFSP provides important information, statistics, and key resources to support those experiencing suicidal ideation. They also outline some of the notable factors that place an individual at risk of suicide, as well as the warning signs that one should recognize to assist a person in need of support. The resource provided on the homepage (i.e., "Navigating a Mental Crisis") further enhances the dialogue recommended for best supporting a person experiencing suicidal ideation or planning.

If you or someone you know is currently thinking of suicide, please call the National Suicide Prevention Lifeline at (800) 273-8255 or text HOME to 741741 to receive support from the Crisis Text Line.
